

CISSP Study Group - March 25th – June 3rd

The San Francisco Bay Area chapter of ISSA offers an annual CISSP Study group. The CISSP Study group is a chapter-sponsored activity to support members in achieving certifications in the security industry. It is a review-style study group tracking to the 10 domains identified in the ISC2 CISSP guidelines. This 13-week series covers all the domains including a mock exam.

The review-style program is lead by domain coaches for each session. The domain coaches have practical experience in their domain and are required to be CISSPs. The coaches present from prepared presentation materials that cover key topic areas, definitions and concepts. Also, they lead a discussion for understanding and answering questions.

Time & Location:

Sessions will be held on Thursday evenings from 5:30- 8:30 p.m. March 25th – June 3rd at the State Fund building; 1275 Market Street, San Francisco, CA 94103.

Registration deadline to sign up is Monday, March 22, 2010

We are limiting the study session to 40 participants, so early registration is highly recommended. Participants must enroll prior to the first class to ensure building access.

Cost is \$40 for associated members (ISSA, ISACA, InfraGard) and **\$75 for non-members** payable via check on the first night of the class (3/25/10). *This fee does not include a study guide.*

Reference Guidebook:

The ISC2 CISSP 2010 edition is the book recommended as a common study aid for all participants. Preparing for the CISSP exam is not as simple as buying a few books and learning the concepts. But, augmenting your practical experience with reference books and guides is highly recommended.

Registration - Interested? Sign up at <http://sfbay.issa.org/>
